# Long Term Care Insurance Benefits

## Protecting Retirement Income

When taking inventory of your assets, have you thought about paying for long term care services? You may be putting your plans for retirement in jeopardy. Long term care insurance will help to protect your assets, your family, and your future. Your assets can be used for their intended purpose and your family is not burdened with care. Planning for your future with a long term care insurance policy will provide you with peace of mind now.

## What's the Cost of Waiting?

Premiums for long term care insurance are based on your age when you purchase your policy, so every year you wait means the cost increases. Your health could change tomorrow, making you ineligible to purchase a policy at any price. The best time to buy a long term care insurance policy is the day before you need it. Unfortunately, no one knows when that day will arrive.

Let us help you choose the long term care insurance benefit options best suited for your needs and budget so you and your family members can become well protected now and for the future.
