May Sponsor - Lisa Gerber, Studio G Photography

Lisa Gerber is owner of Studio G. Photography in Bel Air. She pursued her true passion of artistry after spending a decade in medical and dental sales. When she purchased her first “good” SLR camera in 2001, her interest in photography was sparked. As digital cameras came on the scene and revolutionized the art form, Lisa jumped on the bandwagon and took some courses in digital photography, traveled to conventions and workshops and met some industry trailblazers. She found a whole new world of possibilities through the portrait photographers and digital editors she met, and photography soon became both her

obsession and her vocation. She is working to enhance her techniques and skills to master contemporary portraiture in a unique style. She wants clients to have a customized and unforgettable experience, as well as a cherished piece of art for their home. Lisa opened Studio G at 216 N. Hickory Avenue in Bel Air in 2016. She specializes in family portraits, high school seniors, sports teams and professional head shots. She is a member of PPA, and holds a Bachelor of Science in business management from York College of PA.

May Speaker - Tony Testerman, Novalera, Inc

Tony Testerman is the CEO of Novalera, Inc. Tony started the company to achieve its mission, “to empower small businesses with accessible IT services and the latest technology while maintaining the highest security standards.” All companies (no matter the size) have similar needs when it comes to technology, but a small business's budget is certainly not the same as a large corporation. Small businesses deserve the same peace of mind, expertise and capabilities without the significant cost and burden on their business. Novalera fills that niche. Novalera works with small businesses as an Outsourced Technology Department providing

such services as Managed I.T., Network Infrastructure, Voice over IP, Web Development, and Audio/Video Services. Tony has over 20 years of experience within the technology sector ranging from small software companies to fortune 500 companies. Some of his notable experience includes the initial rollout of Geek Squad for Best Buy and Network Engineer/Administrator for EZShield Identity Protection Services. Novalera is at the forefront of the latest technology available on the market with a keen focus on security and stability in this ever-changing realm of small business technology. Novalera is an I.T. Agency for smart businesses.

WHAT YOU MISSED...

If you were unable to come to our April meeting you missed Drs. Kendal and Peter O'Hare, who brought both humor and knowledge to their presentation. Dr. Kendal presented information regarding hormone replacement therapies - could they be a solution for you, how you would know, what types of hormones should you take. All hormones are not created equal and it is not a simple process to choose what will work for you. She is a family medicine doctor at Lynch Primary Care and if you are experiencing the "fun" symptoms of menopause you may want to give her a call. Dr. Peter is an OB/ GYN urogynecologist, specializing in female pelvic medicine and reconstructive surgery. He spoke about what every woman loves to discuss - leaking bladders, bowels and prolapse. He brought humor in to his discussion of a topic that plagues women at some point in their life. If you cross your legs when you laugh or sneeze, you may need to give him a call. If you don't yet, then keep his number for the future!
